Summary

Passionate Computer Science student with strong proficiency in Java and Python, and a solid foundation in data structures, algorithms, object-oriented programming, and database systems. Skilled in data analysis, data cleaning, and visualization using Pandas and Matplotlib. Experienced in Artificial Intelligence (AI) and Machine Learning (ML) concepts and tools, with hands-on knowledge of model building and evaluation. Familiar with SQL, Git, and software development best practices. Seeking internship or entry-level opportunities in software development or data analysis to apply and expand my technical skills.

Skills

Technical Skills: Java | Python | C++ | SQL | HTML | CSS | Git | Pandas | Matplotlib | Flask | JavaFX | MySQL | NLP | Machine Learning | Data Structures | Algorithms | Regex | EDA | GitHub

Soft Skills: Problem Solving | Communication | Teamwork | Adaptability | Teaching | Quick Learner

Certification

Industrial Internet of Things (IIoT) and System Application Development

IoBM – Institute of Business Management

Karachi

May 2023- August 2023

Alumni Development Program (ADP)

IBA – Institute of Business Administration

Karachi

Organized by The Citizens Foundation (TCF)

2019-2021

Education

SZABIST Ghara

Ghara

Bachelor of Science in Computer Science

2023 - 2027

GOVT College Of Science and Arts MURAD MEMON GOTH

Karachi

Intermediate in Pre Engineering

2019 - 2021

Projects

Crime Data Analysis in Pakistan

Data Analyst & Visualizer

[Github](#)

- Analyzed 11 years of crime data using **Python**, identifying trends in criminal activity across Pakistan.
- Created visualizations to showcase insights using **matplotlib**, **seaborn**, and **pandas**.

Flight Route Tracker

Java Developer & Algorithm Designer

[Github](#)

- Built a **Java-based application** to manage airports and define flight routes.
- Implemented **Dijkstra's Algorithm** to calculate the shortest path, estimated time, and stopovers.

AI-Based Resume Analyzer

Python Developer

[Github](#)

- Developed a tool that uses **Natural Language Processing (NLP)** to analyze resumes for job relevance.
- Provides feedback on skills, keywords, and areas of improvement.

Languages

• **English** – Fluent

Urdu – Native
